SPRAY SUPPRESSION SOLUTIONS

BettsHD proudly offers a uniquely designed fender mounting solution for half and full tandem fenders.

The B900S is simply the strongest and most versatile fender mounting bracket available today. Featuring a full 3-½" of vertical adjustment and a single bolt frame attachment, fender installation is a breeze. The B900S and B900G are standard fare in all half and full tandem installation kits.

B900G Fender Mounting Bracket for Galvanized & Poly Fenders

B900S Fender Mounting Bracket for Stainless & Aluminum Fenders
